

University of Nevada  
Cooperative Extension

June 11, 2007

Dear \_\_\_\_\_,

Please excuse \_\_\_\_\_ from attendance at school to attend an educational 4-H Community Readiness Network training on emergency preparedness, leadership and geospatial technology. We believe this training is applicable to your current school curriculum in the areas of Science, Engineering and Technology.

We appreciate your support of Cooperative Extension 4-H and believe that this program will increase the awareness of emergency preparedness in your communities. This program is sponsored by USDA, Cooperative Extension 4-H, Environmental Systems Research Institute, Inc., and National Geographic Society. The training will provide opportunities for youth to increase their leadership and presentation skills, increase knowledge of geospatial technology, and develop positive youth/adult partnerships. We encourage you to have your youth attendee share the information they have learned with your school.

Sincerely,

Carol Benesh  
State 4-H Youth Development Specialist
